The New and Improved Alumni Football Game

is back!!!

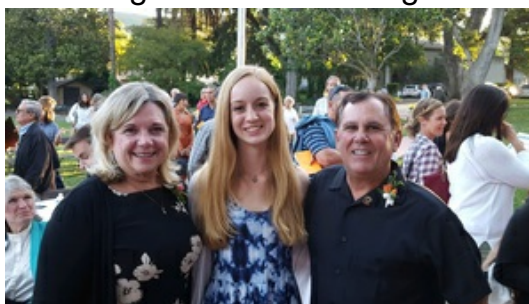

Come relive the fun of a Friday night football game. All alumni are welcome. We will have our own cheering section and more surprises to come. LGHS will be facing off against Holister High School at Helm Field. [More information to come.](#)

Los Gatos High School Alumni Association Scholarship

We were pleased to continue the tradition that the Alumni Association has held for decades. Our scholarship is awarded to a deserving graduating senior whose parent(s)

also attended Los Gatos schools. There were many very amazing applicants. We awarded this year's scholarship to Megan McClaren who will be pursuing a degree in Nursing. Megan not only was an outstanding student, but gave countless hours volunteering at El Camino Hospital as well as several other medical institutions.

Congratulations to Megan.

LGHS Athletic Hall of Fame Incuction

Each Spring, outstanding athletes are selected and inducted into the LGHS Athletic Hall of Fame. This year's event was held on May 6th. Ten deserving athletes were inducted. For a complete list of this year's inductees and all previous inductees go to [2017 Athletic Hall of Fame Program](#)

LGHS News

One of the goals of the Alumni Association is to create an ongoing partnership with the Los Gatos High School community. We meet periodically with Principal Kristi (Musser) Grasty, Class of 1986. We will begin posting what is happening at the school in the News portion of our webpage. Some of the exciting things we recently learned:

- The school has new website. Check it out at <http://www.lgbs.net/>
- Everyone remembers the school newspaper The "El Gato"....well today it is online: <https://elgatonews.wordpress.com/>
- This one is HUGE for our Alumni! I will be highlighting this on our webpage soon. LGHS has

resurrected Career Shadow Day for the 21st century. A webpage was created where companies can sign up to host high school students to shadow their employees: <https://www.myjobshadow.com/>
Interested students are paired with someone in a career they find interesting. The results are amazing. There are videos of students telling about their experiences. Very impressive!
